 Flash Flood (due to Heavy Rain)

 07/09/10 03:45 CST
 0
 Source: Law Enforcement

Several low water crossings were flooded in Harrison.

Tropical moisture from the remnants of Hurricane Alex moved up into Arkansas on the 6th. A weak cold front edged into the northern part of the state on the 8th, triggering storms that day and on the 9th.

FAULKNER COUNTY --- ENOLA [35.20, -92.20]

07/11/10 13:26 CST 50K Lightning

07/11/10 13:26 CST 0 Source: Law Enforcement

Lightning struck a house and set it on fire.

FAULKNER COUNTY --- SALTILLO [35.03, -92.33]

07/11/10 14:35 CST 50K Lightning

07/11/10 14:35 CST 0 Source: Law Enforcement

A tree and a power line fell on a house due to lightning. The house suffered a partial collapse.

CONWAY COUNTY --- 0.4 NNE MORRILTON [35.15, -92.75]

07/11/10 15:20 CST 50K Thunderstorm Wind (EG 52 kt)

07/11/10 15:20 CST 0 Source: Newspaper

A large tree fell, crushing a pickup truck, and causing damage to a second vehicle and the roof of a house.

GARLAND COUNTY --- 2.7 N FOUNTAIN LAKE (INCORPORATED) [34.65, -92.92]

07/11/10 15:20 CST 10K Lightning

07/11/10 15:20 CST 0 Source: Newspaper

Lightning struck a tall oak tree in Hot Springs Village and traveled to the adjacent house. Many of the electronics inside the house were destroyed.

PIKE COUNTY --- 2.1 ESE MT MORIAH [34.11, -93.65]

07/11/10 15:45 CST 8K Lightning

07/11/10 15:45 CST 0 Source: Newspaper

Lightning killed eight cows and two yearlings on a farm. The majority of the cows were under a tree, which the lightning struck first. A couple of the cows were about 75 yards away from the others.

POPE COUNTY --- 2.0 NNW ATKINS [35.26, -92.94]

07/11/10 16:30 CST 15K Lightning

Drainage ditches overflowed, flooding some roads.

Page 5 of 11 Printed on: 10/05/2010

Location Date/Time Deaths & Property & **Event Type and Details** Injuries Crop Dmg

An unusually moist, tropical-like air mass settled over Arkansas on the 11th through 13th. Periodic areas of low pressure aloft moving

through the area set off rounds of showers and thunderstorms. Some of the storms became severe. With the very moist air over the state, some flash flooding also resulted.

The first round of storms moved across the middle of Arkansas on the afternoon and early evening of the 11th. This was followed quickly by another round of storms in northern Arkansas late on the evening of the 11th.

Scattered storms redeveloped over the northern and central sections of the state on the afternoon of the 12th and continued into the early morning hours of the 13th.

A funnel cloud was photographed just west of Slovak (Prairie County) late on the afternoon of July 11th. The funnel had been a tornado briefly, causing minor damage near the tree line in the background of the photo. The photo is courtesy of Mike and Bridgette Moody.

WOODRUFF COUNTY --- 1.0 NNW PATTERSON [35.26, -91.24], 0.6 SSW RIVERSIDE [35.27, -91.23], 0.9 SW RIVERSIDE [35.27, -91.24], 0.7 NNE CAVELL [35.26, -91.25], 0.7 NW PATTERSON [35.26, -91.24]

07/13/10 03:00 CST 5K Flood (due to Heavy Rain) 07/31/10 23:59 CST 0 Source: River/Stream Gage

Rainfall upstream caused the Cache River at Patterson to rise above flood stage during the early morning hours of the 13th. The river remained above flood stage into August.

A tree and large limbs were blown down, blocking a road.

The approach of a weak cold front triggered thunderstorms with large amounts of lightning, along with isolated instances of severe weather and flash flooding on the 15th. The front weakened as it moved farther into the state on the 16th and 17th, but it still managed to touch off isolated severe storms.

Lightning triggered a fire, destroying this home 1.75 miles west of Cushman (Independence County) early on the evening of July 15th. Ironically, the fire occurred on Lightning Ridge Road. Photo by John Robinson, WCM, WFO Little Rock.

Direct Fatalities: M41OU

A heat wave began late in July as high pressure aloft built into the area. On the 30th, only isolated stations recorded highs of 100 degrees, but on the 31st, many stations topped 100. Heat indices were generally in the range of 105 to 110 degrees.
